Sasol Young Explorer – Mammals is a beautiful, exciting and multilingual app that introduces young kids (3–8 years old) to the majestic wild creatures of southern Africa. The app seamlessly blends storytelling and game playing in a fun and educational way, which will keep kids engaged for hours at a time as they develop their reading and learning skills.

Young Explorer is beautifully illustrated throughout, with each animal presented separately and shown in its natural habitat. It is packed with fascinating facts: where the animals live, what they eat, how big they are, what their tracks look like, and when they are active. Calls and videos of animals in the wild provide extra entertainment for curious young minds.

Challenging, age-appropriate games are thrown into the mix, adding extra fun and pleasure to the learning experience.

There are four languages in the app – English, isiXhosa, isiZulu and Afrikaans. Kids can read descriptions, listen to narrations and play games in any of these languages, and easily switch between them within the app.
